TERMS & CONDITIONS

WELCOME TO AUSTRALIAN WILDLIFE PARKS

Australian Wildlife Parks proudly cares for the largest collection of Australian native wildlife in the world and an incredibly diverse variety of exotic species.

At Featherdale Sydney Wildlife Park, located in the heart of Western Sydney, you can discover an incredible array of Australian animals. Experience the thrill of hand-feeding towering giraffes at Mogo Wildlife Park on the stunning NSW South Coast, and visit Australia's beloved lions, Maji and Phoenix, at Hunter Valley Wildlife Park in the picturesque Hunter Wine Region.

All three parks play a vital role in the conservation of endangered species and in fostering knowledge and respect for wildlife.

By choosing an Australian Wildlife Parks venue for your next group event, you'll provide your guests with an unforgettable experience while supporting our mission to educate them about our remarkable animals.
